What is the difference between full day kindergarten and half day?

Parents are the primary difference. If your child is enrolled in half day kindergarten, the assumption will be that you will be providing the enrichment and supplemental time with your child every Monday through Thursday. The full day students have the opportunity to receive more repetition and support in the afternoons from our teachers and staff. Full day students also have the benefit of math centers in the afternoon as well as more literacy time.

The content received is the same; however, the manner in which it is delivered and the repetition is vastly different. We recommend the full day program but we offer both in order to provide a choice for those parents who will take the time to supplement and enrich their child's half day experience.
