

Hello and welcome to the start of the school year 2022-23 here at Monument Academy! We have been working hard this summer to get the technology ready for you and your students. We completely upgraded our entire Monument Academy server to provide a more streamlined technology experience. We are also working on making some improvements to the website and our **MA App**. If you haven't downloaded the **MA App** from the app store on your phone, this is an easy way to receive notifications just as you would receive other phone alerts, depending on your personal settings.

Beginning of the Year Technology Procedures

Your students will receive their iPads during their assigned orientation times. However, in order to receive them, they MUST turn in the **Tech Packet Signatures**. **You will need to print the Tech Packet Signatures and have your child hand in this packet (with all signatures in place) in order to receive their iPads.** If your child does not have the signatures ready to turn in, they will NOT receive an iPad until they do so. The **MA Tech Packet** is attached here for your reference. It does NOT need to be printed out and brought in. The MA Tech Packet is the full version of our agreements.

As in previous years, parents will be able to access **Canvas and Infinite Campus** using the directions found under the Parent Information tab on our website.

If you have any questions, please contact Dawn Bartlett at dbartlett@monumentacademy.net.
