

MATH TUTORING for Elementary through Middle School: High Content & Motivating

I use clear explanations, tips, tricks, and memory devices to maximize acquisition and retention of material.

I instill confidence as I teach, and I've had many students learn to love math. I assess students' strengths and weaknesses, and teach test-taking and error-reduction techniques to promote a deeper understanding of math concepts and to enable students get the best possible grades.

10 as a factor 3 times

$$10^3 = 1000$$

1 and THREE zeros

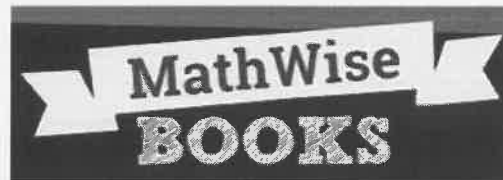

$$10 \cdot 10 \cdot 10$$

Tutoring can be for remediation, grade-level support, or advanced instruction.
